# Hops on Hops

Our Vagabond Series is a year-long monthly rotating series of specialty beers inspired and produced by our brewing team, highlighting their creativity and unique personalities.

Hops are at the heart of everything we do at Lord Hobo, so our brewers are always trying to outdo themselves with each new beer they make – enter Hops on Hops, a beer where caution was thrown to the wind and our brewers were let loose on the hop farm (well, the hop store, but you get the point). Brewed with recent favorites Idaho 7 and El Dorado, this 8% NE Double IPA piles on the juicy and fruity flavors of pineapple, papaya, and bright stone fruits. Before the colder weather sets in, enjoy one last nod to the sunny days of summer with this juiced up NE Double IPA.
